

Nodwin Gaming in Partnership with Blink Delivers Autonomous Content Creation from Live Games

Partnership Previewed Combined Capabilities at India's PUBG Mobile Club Open (PMCO)

(November 18, 2019 – Jerusalem) Blink, the leading AI highlight clip producer, today announced that it has partnered with Nodwin Gaming, the premier and most recognized Indian esports company to amp their player team and fan engagement. Blink's AI producer cognitively selects the best action from esports teams and tournaments and automatically produces highlight clips that show the action from multiple perspectives. Clips created can be distributed in real time to drive more viewers and subscribers real time engagement. The partnership debuted their combined capabilities at the PUBG Mobile Open to great community reception.

“We are thrilled to partner with a company of the caliber of Blink to bring to our esports community such a powerful realtime high highlights content and social engagement platform,” said **Akshat Rathee, Founder and CEO of NODWIN Gaming**. “Our marquee events like PMCO produce literally thousands of hours of content and Blink enables us to access the best moments of this content in real time and at convincing scale with a creative and personalized touch.

Yori Nelken, chairman of Blink and GP of Cognitiv Ventures said, “Blink's AI-driven technology enables gamers to focus on what they love – gaming – while easily sharing their unforgettable moments with their peers hassle-free. The results are more cohesive and vibrant gaming communities that are ultimately more sustaining for gamers and more profitable for publishers and event organizers.”

Blink is the first to develop and commercialize a proprietary cognitive core that combines AI, voice and vision technology to analyze tournament games by individual lead players in real time, detects the most memorable moments and curate highly attractive, engaging and personalized clips for both broadcast and social media consumption.

Ronen Shoval, Blink CEO, said, “We are excited to partner with Nodwin Gaming and showcase at PMCO the full Blink capabilities. It's amazing to work with Akshat and his team on such a significant tournament. We believe that the content we create and the way we create significantly enhances community engagement by giving players, broadcasters and fans instant access to the best and brightest moments of an event.”

Abhijeet 'GHATAK' Andhare, Team Leader of Entity Gaming said, “It's great for us to get such high-quality content during the tournament. At a time when we are fully focused on team performance, it's really valuable to have highlights to share with our fans. It gets them involved and keeps our social channels buzzing.”
